About Warnings

⚠ **WARNING: A WARNING indicates a potential for property damage, personal injury, or death.**

Setting Up Your TV Tuner Card

⚠ **WARNING: Before you begin any of the procedures in this section, follow the safety instructions that shipped with your computer.**
📝 **NOTE:** TV signals supported by your TV tuner card may vary by region.

Your TV tuner card supports the following TV signals:

- Analog TV from antenna or cable
- DMB-TH digital TV from antenna
- ATSC digital TV from antenna
- Clear QAM from cable
- DVB-T digital TV from antenna
- ISBD-T digital TV from antenna

To set up your TV tuner card:

1. Insert the B-CAS card into the B-CAS card slot on your computer (*Japan only*).

2. Connect the TV cable to the TV-in connector on your computer.

3. Install the remote control batteries. For more information, see the documentation that shipped with your remote control.

4. Turn on your computer.

5. Click **Start**→ **All Programs**→ **Windows Media Center**→ **Tasks**→ **Settings**→ **TV**.

6. Follow the instructions on the screen.

Setting Up Your Computer Using a TV Tuner Card and Set-Top Box (Optional)

🖉 **NOTE:** The Radio Frequency (RF) cable must be purchsed separately.

1. Connect the set-top box to your computer using the RF cable.
2. Locate the IR sensor on your set-top box.

3. Peel the protective cover on the IR-transmitter.

4. Place the IR-transmitter directly over the IR-sensor on your set-top box.

5. Connect the other end of the cable to the IR-emitter connector on your computer.

6. Install the remote control batteries. For more information, see the documentation that shipped with your remote control.

7. Turn on your computer.

8. Click **Start**→ **All Programs**→ **Windows Media Center**→ **Tasks**→ **Settings**→ **TV**.

9. Follow the instructions on the screen.

🖉 **NOTE:** For more information on configuring and troubleshooting your TV tuner card, see the *User's Guide* at **support.dell.com/manuals**.
