Specifications

Keyboard Information	
Marketing name	Dell Bluetooth Keyboard Folio WK415
Regulatory model	K07M
Regulatory type	K07M001
Connection type	Bluetooth Low Energy (BLE)
Supported operating system	Android 4.4 or later

Dimensions and Weight	
Height	20 mm (0.79 inch)
Width	231 mm (9.09 inches)
Depth	135 mm (5.31 inches)
Weight (with tablet case)	0.40 kg (0.88 lb)

Communication	
Type	Bluetooth Low Energy (BLE)
Operating range	Up to 10 meters
Operating voltage	3.0 VDC
Operating current	20 mA
Power consumption when Bluetooth is on	750 µA

Batteries	
Slots	Two
Type	Coin-cell non-rechargeable battery
Life span (approximate)	12 months
Operating voltage	2.5 V–3.0 V

Keyboard Environment	
Operating temperature	0°C to 60°C
Storage temperature	-40°C to 70°C
Operating humidity (maximum)	90% relative humidity, non-condensing
Storage humidity (maximum)	95% relative humidity, non-condensing

Troubleshooting

Check for the following symptoms and solutions if you are experiencing problems connecting the keyboard to your tablet.

Keyboard is not turning on

1. Check if the insulation strip is removed.
2. Check if the batteries are installed properly.
3. Try replacing the batteries with new batteries.
4. Slide the power switch on the keyboard and make sure the power-status light turns on.

Unable to pair to the tablet

1. Check if the keyboard is turned on.
2. Check if the keyboard Bluetooth-status light is on.
3. Press the Bluetooth button on the keyboard for 3 seconds to enable pairing mode. The Bluetooth-status light turns on for 60 seconds.
4. Check if the Bluetooth on your tablet is turned on. For instructions on turning on Bluetooth on your tablet, see the documentation that shipped with your tablet.
5. Check if you are using a Dell tablet with Android 4.4 or later installed.
6. Check if you have paired to **Dell WK415 Keyboard**.

Reconnecting the keyboard

When the keyboard is connected and there is no action in the tablet when the keyboard keys are pressed:

1. Unpair the keyboard. For instruction on unpairing a Bluetooth device, see the document that shipped with the tablet.
2. Turn off Bluetooth on your tablet. For instructions on turning off the Bluetooth, see the document that shipped with the tablet.
3. Wait for 20 seconds and turn on Bluetooth on your tablet. For instructions on turning on Bluetooth, see the document that shipped with the tablet.
4. Press the Bluetooth button for 3 seconds on the keyboard to enable pairing mode. The Bluetooth-status light turns on for 60 seconds.
5. Tap **Dell WK415 Keyboard** from the list of available devices. Follow the instructions on the screen to pair with the keyboard. Check if the keyboard is working.
