

Dell Connections License  
Manager  
Version 1.0

## Readme

This file contains updated information for "Dell Connections License Manager Version 1.0." You can access the related documentation from the Dell support website at "support.dell.com." Dell Connections License Manager 1.0 is used for managing licenses and the licensable features provided in Dell Connections products. Use Dell Connections licenses to enable server management capabilities such as embedded systems management monitoring in the Dell Server Management Pack suite 5.0.

With Dell Connections License Manager 1.0, you can do the following:

- Import Dell Connections licenses into the Connections License Manager.
- View and manage license information, like Entitlement ID, feature description, Licensed node, Nodes in use, Remaining nodes and so on.
- Export licenses.
- Delete licenses.

For more information on the License Manager , see the following documents:

- Dell Connections License Manager Version 1.0 Install Guide
- Dell Connections License Manager Version 1.0 User's Guide

## What's New

The release highlights of Dell Connections License Manager Version 1.0:

- Import licenses into the License Manager
- Export the licenses from License manager.
- Obtain License or licenses using the License clients
- Delete the imported licenses.
- View the License statistics.

Import, Export, Delete and view Licenses can be done using the Web UI tool provided with the License Manager.
