

Dell Networking W-Series 205H Access Point

Regulatory Compliance and Safety Information Guide

Introduction

This document contains domestic and international regulatory compliance and safety information for the Dell W-Series 205H Series access points. To ensure that this device complies with the regulatory standards for your country, please refer to the sections below.

- [Electrical and Environmental Specifications](#)
- [Regulatory Information](#)
- [Proper Disposal of Dell Equipment](#)

Electrical and Environmental Specifications

For additional specifications for this product, please refer to the product data sheet at dell.com

CAUTION: All Dell access points must be installed by a professional installer. The professional installer is responsible for ensuring that grounding is available and it meets applicable local and national electrical codes.

ATTENTION: Tous les points d'accès Alcatel-Lucent doivent impérativement être installés par un professionnel agréé. Ce dernier devra s'assurer de la disponibilité de la mise à la terre ainsi que de sa conformité aux normes électrique locales et nationales.

Electrical

Ethernet:

- 4x 10/100/1000 Base-T auto-sensing Ethernet RJ-45 interface (E0-E3)
- 2x passive RJ-45 Pass-Through interface (E0/PT and PT)
- IEEE 802.3 (10Base-T), IEEE 802.3u (100Base-T). IEEE 802.3ab (1000Base-T)
- PoE (IEEE 802.3af and 802.3at compliant), 48VDC (nominal) and 56VDC (maximum)/350mA

Power:

- 48VDC power interface, supports powering through an AC-DC power adapter
- PoE support on Ethernet ports: 802.3af-compliant PoE sourcing device

NOTE: If a power adapter other than the one provided by Dell is used in US or Canada, it should be NRTL Listed, with an output rated 48VDC, minimum 0.75A, marked "LPS" and "Class 2", and suitable for plugging into a standard power receptacle in the US and Canada.

Environmental

Operating:

- Temperature: 0° C to +40° C (+32° F to +122° F)
- Humidity: 5% to 95% non-condensing
- Storage and transportation:
- -Temperature: -40° C to +70° C (-40° F to +158°)

Regulatory Information

NOTE: For country-specific restrictions and additional regulatory information, refer to the *Dell Networking W-Series Safety Environmental and Regulatory Information* document included with your Dell controller or Instant Access Point.

Regulatory Model Name

The regulatory model name for this device is APINH205.

FCC

This device is electronically labeled.

To view the FCC ID for controller-managed access points:

1. Log into the controller WebUI
2. Navigate to **Maintenance > Controller > About**

To view the FCC ID for Instant Access points:

1. Log into the virtual controller WebUI
2. Navigate to **Maintenance > About**

CAUTION: RF Radiation Exposure Statement: This equipment complies with FCC RF radiation exposure limits. This equipment should be installed and operated with a minimum distance of 7.87 inches (20cm) between the radiator and your body for 2.4 GHz and 5 GHz operations. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. When operated in 5.15 to 5.25 GHz frequency range, this device is restricted to indoor use to reduce the potential for harmful interference with co-channel Mobile Satellite Systems.

ATTENTION: Déclaration sur les limites d'exposition aux radiofréquences : cet équipement est conforme aux limites d'exposition aux rayonnements radioélectriques spécifiées par la FCC. Il doit être installé et utilisé à une distance minimale de 20 cm par rapport à votre corps pour les fréquences de 2,4 et 5 GHz. Cet émetteur-récepteur ne doit pas être utilisé ou situé à proximité d'autres antennes ou émetteurs-récepteurs. Lorsqu'il est utilisé en 5.15 à 5.25 GHz gamme de fréquences, ce dispositif est limité à une utilisation intérieure pour réduire les risques d'interférence nuisible aux co-canal systèmes mobiles par satellite.

FCC Class B Part 15

This device complies with Part 15 of the Federal Communications Commission (FCC) Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

ATTENTION: Toute modification effectuée sur cet équipement sans l'autorisation expresse de la partie responsable de la conformité est susceptible d'annuler son droit d'utilisation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the manufacturer's instructions, may cause interference harmful to radio communications.

If this equipment does cause interference, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or TV technician for help.

Users are advised that high power Radars are allocated as primary users of the bands 5250-5350 MHz and 5650-5850 MHz and these Radars could cause interference and/or damage to Licensed Exempt WLAN devices.

Canadian Statement

Complies with the Class B limits for radio noise emissions as set out in the interference-causing equipment standard entitled "Digital Apparatus," ICES-003 of Industry Canada.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Déclaration d'Industrie Canada

Cet appareil numérique de la classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

Conformément aux réglementations d'Industrie Canada, cet émetteur-récepteur radio doit être utilisé uniquement avec une antenne dont le type et le gain maximal doivent être approuvés par Industrie Canada. Pour réduire les interférences radio potentielles, le type d'antenne et son gain doivent être choisis de façon à ce que la puissance isotrope rayonnée équivalente (PIRE) ne dépasse pas les valeurs nécessaires à une communication efficace.

Ce périphérique est conforme aux règlements RSS exempts de licence d'Industrie Canada. L'utilisation de ce périphérique est soumise aux deux conditions suivantes : (1) ce périphérique ne doit pas provoquer d'interférences, et (2) ce périphérique doit accepter toute interférence, y compris les interférences susceptibles de provoquer un dysfonctionnement.

EU Regulatory Conformance

Dell, hereby declares that this device is compliant with the following European Directives:

- R&TTE Directive 1999
- WEEE Directive 2002
- EMC Directive 2004
- REACH Regulation (EC) No.: 1907/2006
- Low Voltage Directive 2006
- RoHS Directive 2011

The Declaration of Conformity for these directives is available for viewing at dell.com.

Medical

1. This equipment is not suitable for use in the presence of flammable mixtures.
2. Connect to only IEC 60950-1 or IEC 60601-1 3rd edition certified products and power sources. The end user is responsible for the resulting medical system complies with the requirements of IEC 60601-1 3rd edition.
3. Wipe with a dry cloth, no additional maintenance required.
4. No serviceable parts, the unit must be sent back to the manufacturer for repair.
5. No modifications are allowed without Dell approval.

第十二條

經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十四條

低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前項合法通信，指依電信法規定作業之無線電通信。

低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

NOTE: Expected Service Life is 5 years.

NOTE: For additional compliance information, refer to the regulatory label on the side of the device.

Proper Disposal of Dell Equipment

Dispose of Dell products per local regulation. For the most current information about Global Environmental Compliance and Dell products, visit dell.com.

Waste of Electrical and Electronic Equipment

Dell products at end of life are subject to separate collection and treatment in the EU Member States, Norway, and Switzerland and therefore are marked with the symbol shown at the left (crossed-out wheeled bin). The treatment applied at end of life of these products in these countries shall comply with the applicable national laws of countries implementing Directive 2002/96/EC on Waste of Electrical and Electronic Equipment (WEEE).

India RoHS

This product complies with RoHS requirements as prescribed by E-Waste (Management & Handling) Rules, governed by the Ministry of Environment & Forests, Government of India.

European Union RoHS

Dell products also comply with the EU Restriction of Hazardous Substances Directive 2011/65/EC (RoHS). EU RoHS restricts the use of specific hazardous materials in the manufacture of electrical and electronic equipment. Specifically, restricted materials under the RoHS Directive are Lead (including Solder used in printed circuit assemblies), Cadmium, Mercury, Hexavalent Chromium, and Bromine. Some Dell products are subject to the exemptions listed in RoHS

Directive Annex 7 (Lead in solder used in printed circuit assemblies). Products and packaging will be marked with the “RoHS” label shown at the left indicating conformance to this directive.

China RoHS

Dell products also comply with China environmental declaration requirements and are labeled with the “EFUP 10” label (left).

有毒有害物质声明 Hazardous Materials Declaration

| 部件名称 (Parts) | 有毒有害物质或元素 (Hazardous Substance) | | | | | |
|-------------------------------------|---------------------------------|-----------|-----------|----------------------------|---------------|-----------------|
| | 铅 (Pb) | 汞 (Hg) | 镉 (Cd) | 六价铬 (Cr ⁶⁺) | 多溴联苯 (PBB) | 多溴二苯醚 (PBDE) |
| 电路板 (PCB Boards) | × | ○ | ○ | ○ | ○ | ○ |
| 机械组件 (Mechanical Sub-Assemblies) | × | ○ | ○ | ○ | ○ | ○ |

○: 表示该有毒有害物质在该部件所有均质材料中的含量均在 SJ/T11363-2006 标准规定的限量要求以下。
Indicates that the concentration of the hazardous substance in all homogeneous materials in the parts is below the relevant threshold of the SJ/T11363-2006 standard.

×: 表示该有毒有害物质至少在该部件的某一均质材料中的含量超出 SJ/T11363-2006 标准规定的限量要求。
Indicates that the concentration of the hazardous substance of at least one of all homogeneous materials in the parts is above the relevant threshold of the SJ/T11363-2006 standard.

对销售之日的所售产品, 本表显示, 供应链的电子产品信息产品可能包含这些物质。
This table shows where these substances may be found in the supply chain of electronic information products, as of the date of sale of the enclosed product.

此标志为针对所涉产品的环保使用期标志。某些零件会有一个不同的环保使用期 (例如, 电池单元模块) 贴在其产品上。
此环保使用期限只适用于产品是在产品手册中所规定的条件下工作。
The Environment-Friendly Use Period (EFUP) for all enclosed products and their parts are per the symbol shown here. The Environment-Friendly Use Period is valid only when the product is operated under the conditions defined in the product manual.
