Battery

Set Up Your Smartphone

Install the SIM Card and Battery

1. Press the DELL™ logo with your thumb and use your other hand to slide a finger into the slot to lift the cover.

2. Pull back the rubber tab.
3. Hold the SIM card with the metal contacts facing down and insert the SIM card into the SIM card holder.

 **NOTE:** To ensure proper installation, align the cut corners in the SIM card with that in the SIM card slot.

Install the SIM Card and Battery

4. Align the metal contacts on the battery with the contacts on the battery holder and insert the battery.

5. Close the cover by inserting the tabs on the cover into the slots on the smartphone, and then snap the cover into place.

Charge Your Smartphone

⚠ CAUTION: Do not use unapproved battery chargers as they may damage your smartphone and invalidate any warranties.

✍ NOTE: The battery requires at least one full charging cycle to attain peak performance.

1. Using the USB to mini-USB cable, connect your smartphone to the power adapter, and then plug the power adapter into a power outlet.

Ensure that your smartphone is fully charged by checking the charge status indicator on the display.

Charge Your Smartphone

2. When charging is complete, disconnect the power adapter from the smartphone.
3. Press and hold the power button to turn on the smartphone.

Unlock the Phone

To unlock the phone, drag the slider across the screen.

Basic Functions

Make a Call

On-Screen Dial Pad

1. Tap the Phone icon .
2. Tap the on-screen dial pad to enter the number. Use the backspace icon  to make corrections.

 **NOTE:** As you enter the first few digits or characters the number or name automatically appears on the screen.

3. Tap the **Call** tab to dial the number.

Contacts List

1. Tap the Phone icon .
2. Tap the Contacts icon .
3. Tap the call icon  beside the contact to call the contact.

Change the Screen Orientation

To change the orientation of the screen from portrait to landscape and vice versa, rotate the smartphone.

Check Voicemail

1. Tap the Phone icon .
2. Tap and hold 1.
3. Follow the voice prompts to check your voicemail.

Input Text

Your smartphone has touch-screen keyboard capabilities that allow you to enter text by tapping the keys that appear on the screen. Commonly used phrases and words appear above the keyboard as you enter text.

 **NOTE:** To close the keyboard in the landscape mode, slide your finger downwards through the **r** and **t** keys.

Tap and hold the **123** icon to switch between the following input options:

- **Qwerty Keyboard** — Enter text by tapping letters on the keyboard.
Tap **123** to access numbers and symbols.
 - **Phone Keypad** — Enter words with predictive text using the phone-style keypad.
 - **HandWriting** — Write text on the screen using your finger.
-  **NOTE:** The default input option is Qwerty Keyboard.

Universal Search

Universal search allows you to search for content such as contacts, pictures, tasks, calendars, applications, and so on. You can also search for content on the Internet.

Navigate Screens

To return to the Home screen, tap and hold the back icon  and drag the slider across the screen.

To return to the previous screen, tap the back icon .

Contacts

Add a Contact From the Call Log

1. Tap the Phone icon .
2. To open the call log screen, tap the Call log icon . The call log lists all incoming, outgoing, and missed calls.
3. Tap a number from the list.
4. Tap the Options icon  and tap **Add new contact**.

Ringtones and Sounds

Manage Ringtones and Sounds

Tap **Settings**  > **Ringtones and Sounds** > **Ring, Vibrate, Silent,** or **Ring and Vibrate.**

- To change the ringtone, tap **Ringtone**. Select a ringtone and tap **OK**.
- To play sound when touching the screen, tap **Audible selection**.
- To change the volume, tap **Volume**. Slide your finger to the right/left on the screen to increase/decrease the volume and tap **OK**.

 **NOTE:** To modify other alerts, tap the specific alert.

Connection Manager

Use the Connection Manager to change ringtones and sounds, view notifications, and enable/disable Mobile Network, Wi-Fi, and Bluetooth®.

1. Tap and slide the status bar downwards to open the Connection Manager.
2. Tap the expand icon  to view the options under **Communication** and **Ringtones and Sounds**.
3. Tap the right arrow  for additional options.

To view a notification, tap the alert.

Text Messages

Read Messages

On the Home screen, tap the new message alert on the notification widget.

Send a Message

1. Tap **Messaging**  > **New Message**.
2. Tap the  icon to open contacts, and select the contact you want to send a message to.
To enter the number directly, tap the field beside **To:**.
3. Enter your message.
4. Tap **Send**.

Camera and Multimedia Messages

Capture a Picture

1. To launch the camera application, press and hold the camera button.
2. To auto focus, press the camera button halfway.
3. To capture the picture, press the camera button completely.

Capture a Video

1. Launch the camera application and tap the Video icon .
2. Press the camera button to start or stop recording.

Send a Multimedia Message

1. Capture a picture.
2. Tap the share icon  > **Messaging**.
3. Tap the  icon to open contacts, and select the contact you want to send the multimedia message to.
To enter the number directly, tap the field beside **To:**.
4. Enter your message.
5. Tap **Send**.

Web/Internet

Browse

1. Tap the Browser icon .
2. Tap the address bar to enter the URL.
3. Tap **GO** to view the web page.

Bookmark a Page

1. Tap the Browser icon .
2. Tap Options  > **Bookmarks.**
3. Tap **Add new.**
4. Enter the bookmark name and location in the appropriate field.
5. Tap **Save.**

Email

You can use your smartphone to manage multiple email accounts. Your smartphone allows you to check:

- Personal email such as POP/IMAP accounts with your Internet service provider (ISP).
- Internet mail accounts such as AOL, Gmail, Yahoo!, and so on.
- Email from your corporate Exchange server.

 **NOTE:** To set up an IT-managed corporate email on your smartphone you require a server address from your corporate IT organization. Contact your IT administrator for more information.

Set Up Corporate Email

1. Tap the Email icon .
2. Tap **Add Account**.
3. Enter the **Email Address, Password,** and **From Name**.
4. Tap **Next**.
5. Tap **Microsoft® Exchange** and enter the required information.
6. Tap **Save**.

Set Up Personal Email

1. Tap the Email icon .
2. Tap **Add Account**.
3. Enter the **Email Address**, **Password**, and **From Name**.
4. Tap **Next**.
5. Enter information under **Advanced settings**.
6. Tap **Save**.
7. To add more accounts, tap the **Add Account** tab.

Send an Email

1. Tap the Email icon .
2. Tap an email account to open the email screen.
3. Tap the Options icon  > **Compose**.
4. Enter the recipient's address or tap the  icon to select a contact from the **Phonebook**.
5. Enter a subject and message.
6. Tap the Options icon  to select **Attach**, **Add**, **Add/Hide Bcc**, **Discard**, or **Priority**.
7. Tap **Send** to send the message and exit this screen.

Bluetooth

Pairing With a Bluetooth Device

1. Tap and slide the status bar downwards to open the Connection Manager.
2. Tap **Communication**.
3. If Bluetooth® is turned off, tap **OFF** to turn it on.

 **NOTE:** Ensure that Bluetooth is turned on before pairing with the Bluetooth device.

4. Tap  to open **Bluetooth settings**.
5. Tap to select a Bluetooth device listed in Bluetooth devices to initiate a connection.
6. You may be prompted to enter a passkey.
Enter a passkey, or enter the specific passkey provided by the device manufacturer.

Wi-Fi

Turning Wi-Fi On/Off

To use Wi-Fi on your smartphone, you must connect to a wireless access point or hotspot.

1. Tap and slide the status bar downwards to open the Connection Manager.
2. Tap **Communication**.
3. If Wi-Fi is turned off, tap **OFF** to turn it on.
4. Tap  to open **Wi-Fi settings**. A list of the compatible networks is displayed.
5. Tap to select the network you want to connect to.

 **NOTE:** For secure networks, you must enter the network password to proceed.

6. Tap **Connect** to confirm the selection.

AT&T Provisioned Services

The following services are available for your AT&T smartphone:

- **AT&T Navigator:** Find your way with voice guided turn-by-turn GPS driving directions, real-time traffic alerts and full-color 3D moving maps, and more.
